ON THE GENERAL TERMS AND CONDITIONS**

*Additional Scan to Order Conditions to the General Conditions of Hydroflex-Hydraulics B.V. established in Oud-Beijerland, Hydroflex Hydraulics Rotterdam B.V. established in Rotterdam and Hydroflex - Hydraulics Belgium NV in Belgium. These additional terms and conditions were filed with the Chamber of Commerce in Rotterdam on February 24, 2022.*

---

### **Applicability**

Our general terms and conditions, which have been filed with the Chamber of Commerce in Rotterdam on February 15, 2021, apply to all deliveries, but if the buyer orders goods via the Hydroflex Hydraulics Scan to Order (hereinafter: S2O) barcode system, the buyer must take into account some additional delivery, sales conditions and restrictions.

### **Via the S2O system:**

- The buyer can only order goods for which the buyer is in possession of Hydroflex Hydraulics barcode stickers. These are available free of charge from Hydroflex Hydraulics.
- High pressure pipe cannot be ordered due to supply and transportation restrictions for this product.
- Can only be ordered digitally via the S2O app. After the buyer has confirmed the order, it is no longer possible to change or communicate about the content or execution of the order. These orders are immediately digitally processed.

### **S2O conditions:**

- Orders can only be placed via the Hydroflex Hydraulics S2O system if: the buyer is a debtor, has a login and password, the buyer has Hydroflex Hydraulics barcode stickers.
- There are standard order quantities per item number, these quantities are also stated on the barcode stickers. These numbers can be adjusted to your needs in the order overview.
- After the buyer has scanned the desired products and the order overview appears on the screen, the system immediately displays the stock available at that time for immediate shipment. By default, no backorders are registered. Optionally, subsequent delivery (back order) is possible. Agree to the conditions must then be ticked. Backorders are always delivered free of charge.
- All prices and other delivery conditions shown on the order overview are based on the existing unique data and conditions which the buyer enjoys at Hydroflex Hydraulics.
- Small order costs are automatically charged for S2O orders under €50. You will be notified in advance when these costs will be calculated, so that the order can still be adjusted.
- S2O orders cannot be combined or subsequently corrected or manipulated in any way.
- Before the order can be confirmed, the buyer will be asked to agree to these additional S2O terms.
- Hydroflex Hydraulics can never be held responsible for scan errors, exchange of barcode stickers in the buyer's warehouse or unexpected differences in available stock for the order.

**S20 deliveries:**

- The buyer's existing terms and conditions at Hydroflex Hydraulics are displayed at the bottom left of the screen.
- Costs arising from returns are for the account and risk of the buyer. The General Terms and Conditions of Hydroflex Hydraulics apply to this.
